**Subject:** Microsoft Settlement

Dear Sir or Madam,

I am writing to oppose the proposed settlement with Microsoft.

The settlement which has been proposed fails in many areas, including:

1. Failure to punish Microsoft for past misdeeds in any way
2. Failure to recognize the importance of noncommercial software
3. Lack of "teeth" in the case Microsoft fails to abide by the settlement
4. Failure to offer any forward-looking remedies

Microsoft's performance is on the record. This settlement will prove to be bad for consumers and bad for business. Please do not make this mistake. If this settlement is approved, it will be years before Microsoft's illegal behavior can be addressed again in court.

Sincerely,  
David Casti
